## **SPECIFICATIONS**

### **CONSTRUCTION**

- Top, bottom and sides...18 gauge stainless steel, die formed and welded.
- Polished, 20-gauge stainless steel channel type tray slide, spot welded to interior of cart wall.
- Top of each cart section is turned up on three sides.

### **TRAY SLIDES**

- Stainless steel, die formed into a specially designed channel shape enabling user to pull trays half-way out without the tray tilting.
- Easy to load in place.
- 4½" Tray to tray dimension.

### **FASTENING DEVICE**

- Extra heavy duty, die formed, split piano hinge type with long stainless steel pin which securely fastens to sides of each cart.
- In "locked" position carts are closed face to face, making each pair of carts **TOTALLY ENCLOSED**.
- All sections of identical models are interchangeable... each section will interlock with any other section.

### **BUMPERS**

- Each individual section has two (2) heavy duty rubber, formed corner bumpers.
- Back side protected from damage while being moved.
- Keep cart away from wall when in use.

### **CASTERS**

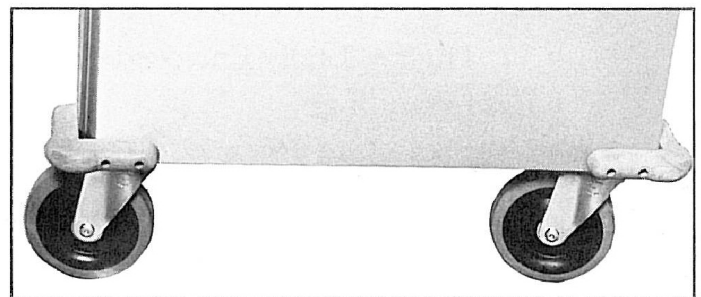

- Standard 5" diameter, wide tread, all swivel.
- Four (4) to each section...eight (8) per pair of carts.
- Each pair welded on heavy gauge stainless steel plate.
- Stainless steel plate is welded to the bottom of the cart.  
Complete wheel easy to remove.

### **TRAYS AND/OR BUS BOXES**

- **NOT INCLUDED WITH CARTS**
- Use trays with non-skid surface only.

### **EXTERIOR FINISH**

- Choice of:
  - All stainless steel—(add S/S to part number)
  - Walnut grain, vinyl clad stainless steel—(add W/G to part number)

**CLOSE-UP OF BUMPERS and CASTERS**
