

NITROGEN GENERATOR

PERFECTION

Perfection Equipment, Inc.
Perfecta Stainless Division

30-gallon storage tank included.
Additional tanks for added
capacity available.

BENEFITS

- **High Production Rate**
Nitrogen Generator has peak nitrogen output of up to 32 cubic feet per hour. Using McDantim's Trumix® precision gas blending technology prevents under and over carbonation and delivers the perfect draft beer
- **Durability**
The exterior cabinet is crafted from 304 stainless steel and the main gas components are piped in copper
- **Reliability**
Nitrogen gas produced by a generator is a utility that keeps on delivering. No more cylinder ordering, change-overs, or run-outs are worthwhile benefits to be enjoyed
- **Serviceability**
An easy open front panel gives access to components. Normal filter maintenance is recommended every 500 hours to keep running in top performance

FEATURES

- **Easy to Install**
Locate free standing unit near electric supply and connect the beverage lines
- **Small Foot Print**
Compact size, 52"(H) x 19"(W) x 13"(D), utilizes a minimal amount of space and facilitates floor cleaning.
